

Sustainable Energy Scenario for Hungary

The Green Workshop Foundation in cooperation with the Heinrich Böll Foundation cordially invites you to the conference titled *Sustainable Energy Scenario for Hungary*.

Benedek Jávor, Member of the European Parliament for Dialogue for Hungary, together with the Greens/EFA Group in the European Parliament commissioned Hungary's sustainable energy scenario from the Wuppertal Institute and Energiaklub Hungary.

The study will be presented by Orsolya Fülöp, Policy Director of Energiaklub and Professor Dr. Stefan Lechtenböhmer, Head of Research at the Wuppertal Institute; following the presentation, Hungarian energy policy experts and representatives from the renewable energy and energy efficiency sectors as well as the government will discuss the findings of the study.

The event is free upon registration (unregistered persons will not be able to enter the venue).
Registration: <http://zma.hu/konferencia-jelentkezes>

Date: 18th of May, 2016

Location: K11 Művészeti és Kulturális Központ (K11 Cultural Center) (Budapest Király u. 11.)

Simultaneous translation in English and Hungarian will be provided at the conference.
